

Global Impact Equity Fact Sheet

Second Quarter, 2022

Strategy Overview

Boston Common's Global Impact Equity strategy seeks long-term capital appreciation by investing in impact investment themes such as Inclusive Finance, Sustainable Transport, Eco-Efficiency, and Renewable Energy. The result is a concentrated portfolio of high-impact companies whose products & services can facilitate the transition to a just and sustainable world. We have a 3-5 year time horizon with high active share and low turnover. The portfolio is benchmarked to the MSCI ACWI Index.

Firm Overview

Boston Common is a boutique, global equity manager dedicated to integrated ESG impact investing since our founding in 2003. Women-led and majority women- and employee-owned, we integrate disciplined, financial research with environmental, social, and governance (ESG) analysis. Using our voice as active shareowners, we encourage companies and stakeholders to meet the urgent, systemic challenges faced by people & planet such as climate change, and racial & gender inequity. Our 43 employees are responsible for the management of approximately \$4.6 billion in assets as of June 30, 2022.

Integrated ESG Investment Process

We deploy rigorous ESG and financial analysis in order to identify innovative companies that not only offer attractive risk-adjusted long-term investment returns, but also provide products and/or services that positively impact society. We believe that over the long term, companies addressing global sustainability challenges & opportunities will experience larger than expected demand for their products & services, thus building competitive advantages. Believing that these opportunities are dynamic and are not fully reflected in valuation, Boston Common's experienced, independent, and integrated Investment team seeks to identify responsible, impact generating investment opportunities and uses an active shareowner engagement approach to catalyze positive improvement across company policies, processes, and products.

Integrated ESG Investment Team

Our diverse, 20-person integrated investment team is composed of seasoned global sector analysts and a dedicated ESG research team with specific domain expertise. Most of our team has lived or worked abroad and collectively has an average of 21 years of investment experience with 12 CFA Charterholders firm-wide.

Diverse Investment Experience

Our work and our firm are vastly enriched by diverse thinking, benefiting our analysis and outcomes.

Integrated Investment Team

Source: APX Advent Portfolio Exchange. Past performance does not guarantee future results. All investments involve risk, including the risk of losing principal. *Represents the absolute percentage of Class A employee owners, which account for 85% total ownership of the firm. Class B shares are held by a single, private outside entity and represent 15% ownership of the firm, as of 2/1/2021. Composite returns are presented in U.S. dollars, net of transaction costs, management fees and withholding taxes, with interest and dividends accrued. Returns for periods greater than one year are annualized.

Portfolio Exposure to the UN SDGs

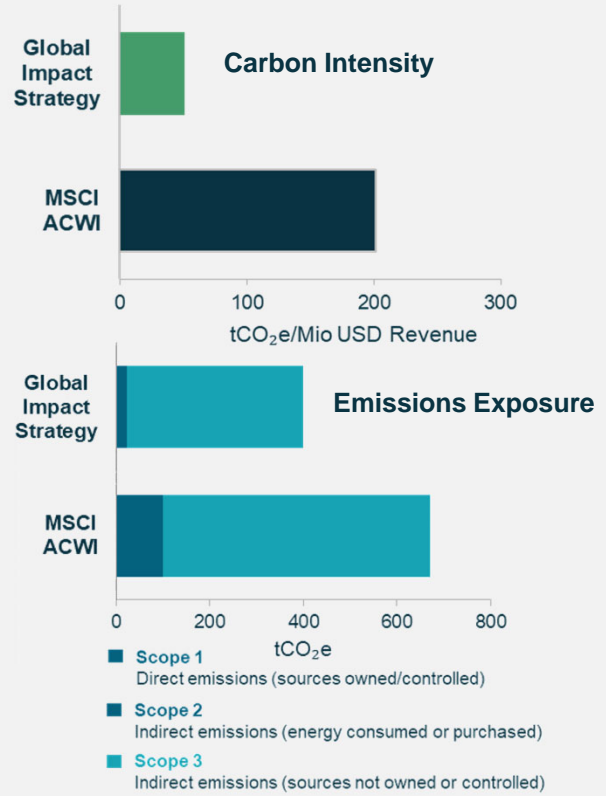

Boston Common created our nine Impact Investment Themes in 2008 to measure & categorize portfolio ESG impact. Our portfolios allocate across all nine themes, providing exposure to companies addressing the UN Sustainable Development Goals.*

Impact Investment Theme	% Global Impact Portfolio			Company Example
	Solutions	Exposure	Total	
Recycling/Efficiency	15.1%	6.6%	21.7%	Hannon Armstrong
Access to Health	11.7%	0.0%	11.7%	CSL
Renewable Energy	8.6%	2.7%	11.3%	First Solar
Education & Communication Empowerment	3.7%	0.0%	3.7%	Yamaha
Sustainable & Inclusive Finance	7.9%	3.4%	11.3%	PagSeguro
Community Investing	5.9%	1.8%	7.7%	TopBuild
Organic/Healthier Products	9.6%	5.2%	14.9%	Croda
Sustainable Transportation	7.1%	1.1%	8.2%	Shimano
Water Quality & Waste Management	9.5%	0.0%	9.5%	TOMRA

PORTFOLIO TOTAL 79.2% 20.8% 100.0%

Portfolio Carbon Footprint**

Boston Common is a member of the Partnership for Carbon Accounting Financials (PCAF), a global, industry-led initiative to measure and disclose portfolio GHG emissions. All strategies are aligned within the range of a 1.5 – 2 degrees scenario analysis through 2050.
